

ANKA WINGS BLOCKCHAIN ECOSYSTEM

THE INTEGRATED FUTURE OF CRYPTO
AND FIAT

Introduction

Leading the transformation of financial technologies, Anka Wings offers a unique digital economy infrastructure by combining crypto and traditional financial systems. Thanks to its EMI, PSP and crypto licenses in Europe and Canada, the platform operates in full compliance with the laws and develops reliable, transparent and scalable solutions for individual users and institutional investors.

The main objective of Anka Wings is to create a hybrid payment infrastructure that manages crypto and fiat payments on a single platform, integrated with bank cards and POS devices. In this way, users and businesses will be able to easily transact with both fiat money and digital assets through a single panel.

Mission & Vision

Mission

Providing a secure, fast and regulated financial infrastructure where fiat and crypto assets can be used in an integrated manner.

Vision

Providing decentralized financial freedom for individuals and businesses around the world; offering borderlessness, privacy and speed in transactions.

Regulations & Licenses

Anka Wings offers maximum user confidence by backing its activities with legal safeguards:

- EMI License (Electronic Money Institution) - EU & Canada
- PSP License (Payment Service Provider)
- Crypto Service Provider License (Wallet, Trading, Custody)
- KYC / AML / GDPR Compliant Service Policies
- ISO/IEC 27001 Information Security Certificate

Roadmap and Expansion Plan

Period	Development
July 2025	Decentralized Exchange (DEX) Launch
September 2025	Listing on Global Stock Exchanges
February 2026	Launch of Money Transfers and POS Services in Europe
April 2026	Money Transfers and POS Infrastructure Setup in Canada
January 2027	POS Devices and Bank Cards with Crypto + Fiat Transaction Support
December 2027	Opening to Global Service

Anka WingsToken (ANKW): The Cornerstone of the Ecosystem

ANKW is the native utility token of the Anka Wings ecosystem and is at the center of all transactions in the system. It is actively used in the following areas:

- Payment and commission discounts on POS devices
- Advantage of transaction fee in mobile application
- Earn passive income by staking
- Participation in community governance through the DAO structure
- Access to premium services (fast support, priority rights, etc.)

Roadmap and Expansion Plan

Distribution Area	Oran	Explanation
Private Sales & VC	%10	Reserved for strategic investors
Community & Stake Rewards	%30	User growth and reward pool
Liquidity & Listing	%20	DEX/CEX integrations
Team and Consultants	%10	It is separated by a 3-year vesting plan
Reserve & Development	%30	Global operations and technology funding

Pre-Sale Strategy and Investor Confidence

The pre-sale process of ANKW token will be conducted with a limited supply and tiered discount model. High return potential will be provided for early participant investors; this process will also create a strategic capital source for the continuity of the platform.

Hybrid Payment Infrastructure: Crypto and Fiat Integration

Anka Wings integrates traditional and digital systems with its hybrid payment infrastructure that reshapes the future of the financial system.

Key Features:

Payment with Bank Cards: One card system for fiat and crypto spending

POS Integration: Fiat-crypto transactions with instant exchange rate conversion

Single Panel Management: Wallets, bank accounts and assets in one interface

Hybrid Payment Infrastructure: Crypto and Fiat Integration

Mobile Super App:

IBAN defined crypto wallet

Fiat and crypto transfer

Swap, stake and card management

International Transfer:

Transfer via mobile number, IBAN and wallet address

- Blockchain traceability

Fast and low cost processing

Liquidity and Staking Programs

ANKW token holders contribute to the security of the network while earning passive income by staking their assets. The volume of the platform increases with special bonuses for liquidity providers.

Structures Supporting the Ecosystem

NFT Marketplace and Integration
Tokenized Real Estate and Healthcare Platforms
Decentralized Gaming and Microfinance Solutions
Cross-chain Liquidity Bridge
Launchpad Startup Support Platform
DID (Decentralized Identity) Systems
Ecological Sustainability Fund

Strategic Advantages for Investors

Regulatory Compliance: Legal assurance with European and Canadian licenses

Comprehensive Vision: Full integration between crypto and traditional systems

Early Bird Benefit: Pre-sale tokens and staking rewards

Real Life Usage: Spending, transfers and financial management

Team & Consultants
